

HANNAH BURROWS
Job: Consenting Administration Officer

"I love my job because it makes
a difference to people's lives"

Take a closer look at a career in Local Government

A career for you, your community and your future

Councils provide a huge range of services to the communities they serve from the basics of maintaining efficient infrastructure for our roads and water pipes to providing facilities to promote and improve community well-being. That means there's a huge range of career opportunities available across the sector – from Communications Managers through to Environmental Officers; Animal Control Officers to Engineers; Building Inspectors through to Transport Planners and so much more.

Find out more at [LGCareers.co.nz](https://lgcareers.co.nz), search current local government job listings on [LGJobs.co.nz](https://lgjobs.co.nz) or contact your local council.

Check out why Hannah, Tejay, Myfanwy and Tanya chose a career in local government in our "Take a closer look at a career in Local Government" video at LGCareers.co.nz/LGCareersVideo

HANNAH BURROWES

Job: Consenting Administration Officer

"I love my job because it makes a difference in people's lives. What attracted me to the job was the opportunity to develop and grow within the council. And I get to issue the consents and help build the city."

TEJAY ROACH

Job: On-Street Parking Team Leader

"I never dreamed that at 36 I'd be in charge of a team that had such an impact on the city. I appreciate that the council is supporting my university studies and helping me further my career."

MYFANWY EMENY

Job: Team Leader, Urban Ecology

"I love going to work every day because I'm passionate about the environment and I'm passionate about our community and I get to combine those two things every single day."

TANYA WINTER

Job: Chief Executive

"What I love about my job is knowing that we're taking care of many of the things that matter in people's lives. And to think – my career in local government started with a job as a pool attendant."
