

The LGExecutiveLeaders programme is a 12 month programme designed to develop the next generation of Local Government Senior Leaders and Chief Executives.

APPROACH

The LGExecutiveLeaders Programme, provided to the sector by SOLGM in conjunction with the Continuum Consulting Group, uses the latest in brain based science and leadership effectiveness to get results and drive behavioural change. It does not look to duplicate or even emulate previous developmental experiences; it looks at the “who” of leadership, not so much the “what”. This programme focuses strongly on leadership self-awareness and tailored learning. It is a cohort based experience balanced with the emphasis on meeting the development needs of the individual.

WHO SHOULD ATTEND

The LGExecutiveLeaders programme is designed for executives who are already in positions of influence but who are ready to accelerate their learning, stretch their capacity for high performance and broaden their horizons. Participants will be those that aspire to positions at the highest levels of Local Government.

PROGRAMME OUTLINE

Cohorts of up to 12 participants will go through the 12-month programme together. It consists of a three day ‘immersion’ and residential component, followed by three, one day workshops as well as individual coaching sessions (via phone or Skype) over the next 12 months. The programme wraps up with a final review day and cohort dinner.

LGLeadershipPathways

A SOLGM SERVICE

LGExecutiveLeaders is a programme provided by SOLGM as part of our LGLeadershipPathways initiative which promotes professional capability in the Local Government sector

PROGRAMME PRESENTERS

JENNIFER MCDONALD
Director, Continuum Consulting Group

Jennifer is a senior leadership development practitioner, specialising in the Neuroscience of Leadership. Having held senior roles during the course on an internationally focussed career, encompassing London, Australia, Hong Kong and New Zealand, she set up her own consultancy in 2007 in New Zealand.

She works with government and private sector organisations and has a passion for effective leadership, believing that a combination of evidence and practical application leads to learning and behaviour change. She holds a Graduate Diploma in Human Resource Management from Victoria University, as well as an MSc in The Neuroscience of Leadership from Middlesex University, UK.

DR NORMAN CHORN
BrainLink Group Australia

Norman is a strategy and organisation development practitioner who works in Australia, UK, New Zealand and South Africa. After leaving a leading consulting firm, Norman founded the Centre for Strategy Development, a strategy and research firm with affiliations in UK and North America.

Norman has published widely in his field and has contributed to a range of journals and international conferences. He holds visiting and adjunct appointments at a number of leading Graduate Schools of Management, including Macquarie University (Australia), the University of Pretoria (South Africa) and Otago Graduate School of Business (NZ).

DR PETER CAMMOCK
Leadership Lab

Peter teaches and researches leadership at the University of Canterbury. For the last few years he has been the MBA Director (and Director of Executive Development) at the University of Canterbury. Peter has a strong interest in complexity, creativity and positivity in leadership and in the personal foundations of emotionality, character and alignment that underlie effective organisational leadership.

He has been described by NZ Management Magazine as "one of the nation's best leadership writers" and is the author of two books, "The Dance of Leadership" (2001, 2003) and "The Spirit of Leadership" (2008, 2009, 2013) and a number of international publications.
